# Dogg – Forever Shaman

**Dwarf Shaman, 2H Enhancement, Alliance** · levelling sheet 1–60 · companion to the Guidelime guide **Forever Shaman 1-30**

**Weapon first.** Weapon DPS is the stat: 1 DPS = 14 attack power. Rockbiter until 30, Windfury from 30 (60-min imbues, re-apply after every death).

**Mana is the limiter.** Shock once on the pull until Shamanistic Focus (20); drink, don't wait. Int = attack power from level 15 (Mental Dexterity).

**Shaman trainers are Dun Morogh + Ironforge only.** Nothing in Stormwind, Darnassus, Menethil or Darkshire. Take the tram.

Built 2 Nov 2026 · talents/spells read from Forever client 1.60.1.70707 + 30 Oct hotfixes (wowforevertalents.com) order after Icy Veins (17 Oct) + our weights; unverified items on page 4

## Talent order, level by level

### 10–19 · Enhancement

| | | |
|---|---|---|
| **10–14** | Thundering Strikes 5/5 | +5% crit (spells and attacks) |
| **15–17** | Mental Dexterity 3/3 | AP = 100% of Int |
| **18–19** | Improved Ghost Wolf 2/2 | instant, usable indoors |

### 20–29 · Enhancement

| | | |
|---|---|---|
| **20** | Shamanistic Focus 1/1 | shocks + Lightning Shield −45% mana |
| **21–23** | Elemental Weapons 3/3 | Rockbiter +20%, Windfury +40% |
| **24** | Anticipation 1/3 | filler to reach 15 points |
| **25** | **Stormstrike 1/1** | your main button |
| **26–29** | Flurry 4/5 | needs Thundering Strikes 5/5 |

### 30–39 · Enh then Resto

| | | |
|---|---|---|
| **30–31** | **Improved Stormstrike 2/2** | mana regen while casting, CD resets |
| **32** | Spirit Weapons 1/1 | parry = more resets, −30% threat |
| **33–37** | Tidal Focus 5/5 Resto | +5% hit, heals −5% mana |
| **38–39** | Mindfulness 2/3 Resto | regen continues while casting |

### 40–49 · Resto then Enh

| | | |
|---|---|---|
| **40** | Mindfulness 3/3 Resto | |
| **41–42** | Improved Healing Wave 2/5 Resto | filler to reach 10 |
| **43** | **Water Shield 1/1** Resto | replaces Lightning Shield |
| **44** | Flurry 5/5 | |
| **45–46** | Mental Quickness 2/2 | spell dmg/heal = 30% of Int |
| **47–49** | Maelstrom Weapon 3/5 | |

### 50–60 · finish

| | | |
|---|---|---|
| **50–51** | Maelstrom Weapon 5/5 | instant-ish Lightning Bolt at 5 stacks |
| **52** | **Rage of the Farseer 1/1** | +30% attack speed 25 s, 3 min CD |
| **53–57** | Convection 5/5 Elemental | shocks −10% mana |
| **58–60** | Elemental Devastation 3/3 Elemental | spell crit → +9% melee crit |

### At 60: 32 / 8 / 11

Enhancement 32, Elemental 8, Restoration 11. Respec and move the 19 off-tree points into Toughness / Anticipation / Improved Lightning Shield, Guardian Totems or back into Elemental for raiding once the raid build settles (raids open 9 Dec).

**Why this order.** Tier 2 needs 5 points in the tree, so Thundering Strikes has to come before Mental Dexterity (our Sept note said MD first; the gate makes that impossible). Stormstrike needs 15 points, so one Anticipation point at 24 is the price of Stormstrike at 25. Everything from 26 on is about mana: Improved Stormstrike, then the Resto detour for Mindfulness and Water Shield. Maelstrom and Rage are late on purpose: they are big investments that pay little before 50.

**Optional respec at 25 (Icy Veins).** If mana is miserable 10–24 you can spend the first 14 points in Resto (Tidal Focus, Mindfulness, Water Shield at 10 points) and respec into the Enhancement line at 25 when Stormstrike opens. Respecs are cheap early (10 s, then 1 g, rising). I would only do it if drinking is really the bottleneck in practice.

**Legacy.** The account-wide Legacy tree unlocks at your first level-25 character; its *Talented* perk starts talent points at 9–5 for later characters. Nothing changes for this first run.

### Restoration picks (11)

- Tidal Focus 5/5 (33–37): +5% hit, heals cheaper
- Mindfulness 3/3 (38–40): 50% of regen while casting
- Improved Healing Wave 2/5 (41–42): filler
- **Water Shield** (43): mana back when hit or on a crit – use it instead of Lightning Shield

### Elemental picks (8)

- Convection 5/5 (53–57): shocks and bolts −10% mana
- Elemental Devastation 3/3 (58–60): a spell crit gives +9% melee crit for 10 s

### Gone from Forever

Two-Handed Axes and Maces (talent), Weapon Mastery, Enhancing Totems, Improved Weapon Totems, Shield Specialization. Two-handers now come from the weapon master (page 2).

# Trainer stops 1–30 — what to buy, what to skip

MUST core button · BUY worth the silver · LATER only when gold is easy · SKIP never while levelling 2H Enhancement

| LVL | NEW AT THE TRAINER (RANK) | NOTES |
|---|---|---|
| 1 | Known: Lightning Bolt 1, Healing Wave 1, Rockbiter Weapon 1 | Put Rockbiter on the weapon before the first pull. Check the skill tab for Two-Handed Maces. |
| 4 | MUST Earth Shock 1 · BUY Stoneskin Totem 1 after Call of Earth | Earth Shock is the interrupt and your opener for the whole game. Stoneskin only vs 2+ melee mobs. |
| 6 | BUY Healing Wave 2 · BUY Earthbind Totem | Earthbind = runners, kiting, dungeon pulls. Every Healing Wave rank is worth it: it is the heal between fights. |
| 8 | MUST Rockbiter 2 · MUST Lightning Shield 1 · MUST Earth Shock 2 · BUY Lightning Bolt 2 · BUY Stoneclaw Totem 1 | Lightning Shield before every pull from here on. Stoneclaw taunts adds off you for 15 s: the "oops" button. |
| 10 | MUST Strength of Earth Totem 1 · MUST Searing Totem 1 · BUY Flame Shock 1 · SKIP Flametongue Weapon | Searing needs the Fire Totem (Call of Fire finishes in Loch Modan ~14). Flametongue loses to Rockbiter all the way to 30; never buy a rank. |
| 12 | BUY Fire Nova 1 · BUY Purge 1 · BUY Ancestral Spirit 1 · BUY Healing Wave 3 | Fire Nova is a spell now (no totem): AoE around your fire totem, 10 s CD. Ancestral Spirit = the dungeon rez; later ranks only change the HP/mana you rez with, skip them. |
| 14 | MUST Earth Shock 3 · LATER Lightning Bolt 3 · SKIP Stoneskin 2 | Rank-1 Lightning Bolt pulls just as well; higher ranks are dead money until Maelstrom Weapon (47). |
| 16 | MUST Rockbiter 3 · MUST Lightning Shield 2 · BUY Cure Poison | Rockbiter 3 = +118 AP. Stoneform covers you; Cure Poison covers the party. |
| 18 | BUY Healing Wave 4 · BUY Tremor Totem · LATER Flame Shock 2 · LATER Stoneclaw 2 · SKIP Flametongue 2 | Tremor for fears (Deadmines, SFK, Stockade). The guide's optional tram trip at ~19 is for these. |
| 20 | MUST Ghost Wolf · MUST Searing Totem 2 · BUY Frost Shock 1 · BUY Call of the Elements · BUY Totemic Recall · BUY Healing Stream Totem 1 · BUY Lesser Healing Wave 1 · SKIP Frostbrand Weapon · SKIP Lightning Bolt 4 | Big stop (Eldrun, Ironforge; Call of Water starts here). Call of the Elements drops your 4-totem set in one cast; Totemic Recall refunds 25% when you leave. Frost Shock: runners and when Earth Shock pulls threat in groups. |
| 22 | BUY Fire Nova 2 · BUY Totemic Projection · BUY Water Breathing · LATER Cure Disease · SKIP Poison Cleansing Totem | Totemic Projection moves the set 30 yd (1 min CD): great in dungeons. Water Breathing for the Call of Water waterskins. |
| 24 | MUST Rockbiter 4 · MUST Earth Shock 4 · MUST Lightning Shield 3 · BUY Strength of Earth 2 · BUY Healing Wave 5 · SKIP Stoneskin 3 · SKIP Frost Resistance Totem · SKIP Ancestral Spirit 2 | Rockbiter 4 is +194 AP, the biggest single jump before Windfury. The guide trains 24 together with 26 in chapter 15 (Ironforge) – nothing here is urgent. |
| 26 | BUY Mana Spring Totem 1 · BUY Magma Totem 1 · SKIP Far Sight · SKIP Lightning Bolt 5 · SKIP Flametongue 3 | Mana Spring = your water totem in groups; Healing Stream solo. Magma (230 mana) is the dungeon pack tool with Fire Nova. |
| 28 | BUY Flametongue Totem 1 · BUY Lesser Healing Wave 2 · LATER Flame Shock 3 · LATER Water Walking · SKIP Stoneclaw 3 · SKIP Fire Resistance Totem · SKIP Frostbrand 2 | Flametongue *Totem* (not the weapon imbue): a 5-minute fire totem = a Fire Nova anchor that does not expire mid-camp, and it stacks with your own Windfury Weapon. |
| 30 | MUST Windfury Weapon 1 · MUST Reincarnation · MUST Astral Recall · BUY Searing Totem 3 · BUY Grounding Totem · BUY Call of the Ancestors · LATER Healing Stream 2 · SKIP Nature Resistance Totem | Windfury on the two-hander from now on: 20% chance per hit of 2 extra swings with +104 AP. Rockbiter is finished (one imbue per weapon). Astral Recall = second hearthstone, 15-min CD. Reincarnation needs Ankhs (reagent vendor) – keep two. |

## Where you train

| | |
|---|---|
| **Teo Hammerstorm** | Anvilmar, Coldridge Valley 28.8,66.2 – levels 1–8, Call of Earth |
| **Ingrid Dunwald** | Kharanos, by the inn 47.4,52 – levels 8–10, starts Call of Fire |
| **Eldrun Stormbreaker** | Ironforge, Forlorn Cavern 46.2,13.2 – everything from 12 on; Call of Water (20) and Call of Air (30) start here |
| **Buliwyf Stonehand** | Weapon master, Ironforge Military Ward 61.2,89.5 – **Two-Handed Axes** (and Maces if the skill tab lacks them). The 2H talent is gone; the client puts 2H Maces on the class from level 1 and 2H Axes on the trainer. Train axes on the first Ironforge pass (chapter 02, ~12): Mountaineer's Greataxe (15), Rockslicer, Reef Axe, Corpsemaker and Thermaplugg's Arm are all axes. |
| **No trainer** | Stormwind, Darnassus, Menethil, Darkshire, Southshore, Astranaar. Deeprun Tram from the Dwarven District = 10 minutes to Eldrun and back. |

## Class quests (totems live in your bags: never vendor them)

| | |
|---|---|
| **4 · Earth** | Call of Earth, Teo Hammerstorm (3 parts, Spirit Stone up the hill 25,62.4). If he never offers it, Eldrun has a level-10 copy. |
| **10–14 · Fire** | Call of Fire: Ingrid (Kharanos) → Bruegs Kindleborn (Dun Morogh 87.6,43.6) → Braldir Ashmantle (Loch Modan 32,66) → Fire Tar (Tunnel Rat Geomancers) + Reagent Pouch (Stonesplinter Seers) → the brazier 31.9,64.5. Searing Totem waits on it. |
| **20–23 · Water** | Call of Water, 9 parts, ~10,500 XP: Eldrun → Norric Lochthane (Loch Modan 41.8,19) → Hervdana Saegrund (Wetlands 65.8,76.4), waterskins at Stonewatch Falls, Astranaar, Stendel's Pond; threaded through chapters 08–22. |
| **30 · Air** | Call of Air, Eldrun → Veyric Thunderhame, Arathi (walk NE from Refuge Pointe, mobs 30–33) – chapter 25, 2,450 XP. Grounding/Windfury/Grace of Air totems need it. |

## Never buy (while levelling)

Flametongue Weapon (any rank) · Frostbrand Weapon · Frost / Fire / Nature Resistance Totems · Stoneskin ranks 2+ · Far Sight · Sentry Totem · Windwall Totem · Disease Cleansing Totem · Chain Lightning · Chain Heal · Lightning Bolt ranks 4–7 · Ancestral Spirit ranks 2+ · Stoneclaw ranks 3+ · Rockbiter ranks 5+ (Windfury replaced it; only if you tank with a shield).

Spell levels/ranks: Forever client 1.60.1.70707. Training prices are not in the client data (the What's Training? addon shows them in game). Trainer positions: QuestieDB Forever 1.0.9.

**Shields:** only one elemental shield at a time. Lightning Shield 1–42, Water Shield from the talent at 43 (2% max mana back per globe, 3 globes, 10 min). **n/a** = ranks of talent spells you will not have (Mana Tide, Lava Burst, Riptide).

## Mana notes

- Healing Wave ~1.8 HP per mana; Lesser Healing Wave is for in-combat only.
- Mental Dexterity (15) and Mental Quickness (45) turn every Int item into attack power and spell damage: "of the Eagle" is not a caster piece for you.
- Spirit regen runs outside the 5-second rule; Improved Stormstrike (31) and Mindfulness (38) keep part of it running while casting.
- Shamanistic Focus (20) is the point where shocking on cooldown stops costing drink time.
- Water Shield (43): 2% of max mana per globe – swap it in for Lightning Shield the day you take it.

## 1–9 · Bolt, shock, hit

Rockbiter (on weapon) → Lightning Shield (from 8) → Lightning Bolt (pull) → Earth Shock (as it lands (4+)) → Auto-attack (to the end) → Healing Wave (then drink)

- Two mobs: Stoneskin Totem (4), then Earthbind (6) if you need to walk away.
- Open-world mobs die to white hits; mana goes on Healing Wave, not on bolts.

## 10–19 · Totems in, shock once

Str of Earth (at each camp) → Searing (30 s, drop at the mob) → Earth Shock (one, on the pull) → Melee → Fire Nova (2+ mobs at the totem) → Healing Wave

- Every extra 85-mana shock costs more drinking than the 1.2 s of melee it saves (our model): shock once, then hit things.
- Flame Shock only on runners and casters you can't reach; Stoneclaw when a third mob joins.
- Ghost Wolf is instant from 19: wolf between camps, not between mobs.

## 20–29 · Shamanistic Focus, then Stormstrike

Call of the Elements (SoE / Searing / Healing Stream) → Stormstrike (25+, on CD) → Earth Shock (on CD (+20% after SS)) → Melee → Fire Nova (packs) → Totemic Recall (leaving)

- Shocks are cheap now: Earth Shock every cooldown. Frost Shock instead when a mob runs or when you pull aggro in a group.
- Groups: Mana Spring (26) in the water slot, Magma (26) + Fire Nova on packs, Flametongue Totem (28) as the long-lived fire anchor.
- Lesser Healing Wave in combat, Healing Wave after; Totemic Projection (22) drags the set to the next pull.

## 30–60 · Windfury

Windfury Weapon (every hour) · Lightning / Water Shield → Stormstrike (on CD + resets) → Earth Shock (on CD) → Lightning Bolt (5 Maelstrom (47+)) → Rage of Farseer (52+, elites/packs) → Fire Nova (spare mana)

- Improved Stormstrike (31): every Stormstrike gives 15 s of regen while casting – cast heals and shocks inside that window. Watch for cooldown resets when you dodge or parry.
- Slow 2H (3.3–3.8) from 30 on: Windfury and Stormstrike scale with weapon damage per swing.

## Totem cheat sheet

| SLOT | SOLO | GROUP / DUNGEON |
|---|---|---|
| Earth | Strength of Earth (10) | Strength of Earth; Stoneskin only for a shield-tank pull; Tremor (18) vs fear; Earthbind to kite |
| Fire | Searing (10–27), Flametongue Totem (28+) as the Fire Nova anchor | Magma (26) + Fire Nova on packs; Searing for single targets |
| Water | Healing Stream (20) | Mana Spring (26); Poison/Disease Cleansing only on specific bosses |
| Air | Grounding (30) vs casters, Grace of Air (42) | Windfury Totem (32) for the party (not you), Grounding vs casters |

- Call of the Elements (20) / Ancestors (30) / Spirits (40) = three saved 4-totem sets: set 1 solo, set 2 group, set 3 utility.
- Totems last 5 min (Searing 30–55 s), 30 yd range. Totemic Recall refunds 25% of their mana when you walk away; Totemic Projection (22) moves the whole set 30 yd.
- Searing attacks the nearest enemy – drop it next to the mob, not behind you.

Rotation priorities after Icy Veins' Forever Enhancement guide; the 10–19 shock policy is from weights/enh_weights.py (kills per hour, 24 Sep 2026).

## Stat priority (kill speed, 2H Enhancement)

| | | | |
|---|---|---|---|
| **Weapon DPS** | 14 – the whole game. Speed is irrelevant before Windfury; slow after 30. | **Strength** | 2 (two AP each) |
| **Intellect** | 1.05 from 15 (Mental Dexterity); the mana pool itself buys nothing | **Spirit** | ~1 (less drinking; least certain number) |
| **Agility** | 0.5 at 10 → 0.85 at 20 (crit only) | **Spell damage** | 1.5 per point (shocks, shield) |
| **Stamina** | 0 for kill speed; it only matters when you die | **Hit / crit %** | ~6 AP per 1% at 20 |

Leather and cloth until **mail at 40**. Greens: Bear (Str/Sta) > Monkey (Agi/Sta) > Eagle (Int/Sta); a +Int piece is an AP piece from 15. Crafted **Totemic Leather** beats Brawler's in every slot but the belt (Blackened Defias Belt).

Hall of Thanes 15–16 (03) · Deadmines 19–20 (07) · Ruins of Lordaeron 20–21 (08) · Blackfathom Deeps 22–23 (13) · Stockade 24–25 (15) · Excavation Site: Wetlands 28–29 (22) · Gnomeregan 29–30 (24) · Razorfen Kraul 30 (26, optional) · City of Dalaran 28–33 goes in the 30–40 guide. Every quest is labelled normal / grind in the chapter; nothing is re-run for a drop.

## Food and drink

| | |
|---|---|
| **Well Fed** | eat any cooked food 10 s = 15 min of a stat buff **plus +5% XP from kills**. Always be fed. |
| **Longjaw Mud Snapper** | **+10 attack power**, level 5+. Recipe = Cooking 50, Khara Deepwater (Loch Modan 40.3,39.3) or Tansy Puddlefizz (Ironforge). Your fish 5–24. |
| **Mithril Head Trout** | **+20 attack power**, level 25+. Recipe = Cooking 175, Stuart Fleming (Menethil dock 8.0,58.4). Bank raw trout from the Menethil dock at 21–22. |
| **Water** | the highest-level drink the innkeeper sells, two stacks, every town. Drinking is 15–25% of grind time at 10–19; a bigger drink is a real DPS stat. |
| **Skill targets** | Cooking 50 by 12 · 80 by 16 · 125 by 24 (Expert Cookbook, Shandrina, Ashenvale) · 175 by ~30. Fishing 25 by 12 · 50 by 15 · 100 by 22 · 130+ by 28. Strong Fishing Pole = +45 (Khara, 12). |

## Professions

| | |
|---|---|
| **Skinning + Mining** | from Anvilmar (level 2). Skinning = +5% damage to Beasts (stacks with Big Game Hunter), Mining = +5% health. Bank every Pyrite and Shadowgem, and the Light Leather. |
| **Decision at 25** | count Pristine Leather: 4+ = Totemic Belt + Gloves, 25 = all six → drop Mining for Leatherworking (bank Pyrite first); otherwise stay Mining and sell. Totemic Armor + Pants need no Pristine Leather – watch the AH for the patterns. |
| **First Aid** | 20 by the Camping 101 hand-in, 50 by the first Ironforge trip, 80 by Westfall, 115 after the Stockade, Expert book before Arathi. First Aid makes the healing potions in Forever. |
| **Camping 101** | one per profession at Eric Brighthammer's camp (Kharanos 46.6,53.8); each completes at skill 20 at the named trainer. Sit at a campfire for the rest buff; Leatherworkers' Camp Tents give rested XP. |

## Bag check before you leave town

- Earth / Fire / Water / Air totem items – never vendor, never bank
- 2 stacks of water, 1 stack of cooked fish, bandages
- 2× Ankh from 30 (Reincarnation reagent, reagent vendor)
- Strong Fishing Pole + lures; Simple Wood + Flint and Tinder for a cooking fire; Camp Chair
- Repair; empty bags; Pyrite / Shadowgem / Light Leather to the bank
- Hearth stays at Sentinel Hill from chapter 18 on (chapter 22 needs it)
- Weapon imbue + shield up before the first pull

## Escape priority

1. Stoneform – clears bleed/poison/disease, −10% physical for 8 s
2. Earthbind Totem under your feet, then walk
3. Frost Shock the chaser (50% slow, 8 s)
4. Ghost Wolf – instant from 19, indoors too
5. Stoneclaw Totem peels adds for 15 s; Earth Shock the caster
6. Lesser Healing Wave on the move; Healing Wave once clear
7. Reincarnation (30, Ankh) – 20% HP/mana, walk away first

## Check in game (nothing here has been played yet)

- **Two-Handed Maces / Axes:** skill tab at level 1; whether Buliwyf Stonehand teaches both; whether the Coldridge Hammer (8) equips before the first Ironforge trip.
- **Stoneskin Totem:** trained after Call of Earth, or granted by the quest.
- **Trainer prices** (not in the client data – the What's Training? addon lists them).
- **Dual Wield:** the client tables allow it from 1 (SoD leftover?) – irrelevant for a 2H build unless Stormstrike hits with both.
- **Racial:** Artisan's Precision vs Earth Fury.
- **Reincarnation reagent** (Ankh) and vendor; Astral Recall cooldown.
- **Dual spec and Apprentice Riding at 40** (Warcraft Tavern milestone table).
- **Spirit regen, Rockbiter AP on the sheet, Earth Shock + spell damage** – the weights' open questions.
- **Journeyman Cooking/Fishing/First Aid gates** (assumed 50 / level 10).
- **Fire Nova threat** goes to you, not the totem (Method) – matters in groups.

## Dwarf racials (Forever, 30 Oct data)

| | |
|---|---|
| **Stoneform** | removes and immunises Bleed, Poison, Disease; −10% physical damage 8 s; 3 min CD. |
| **Big Game Hunter** | +5% damage to Beasts (most of 1–30 is beasts). |
| **Artisan's Precision** | +1% hit with spells and attacks. Mid-October builds showed "Earth Fury" (+2% crit damage) in this slot – read the racial tab at character creation. |
| **Find Treasure** | chests on the minimap, sometimes more treasure. Keep it on. |

## Changed from Classic that bites a shaman

- Imbues last 60 min, totems 5 min, 30 yd. No Fire Nova Totem; Fire Nova is a spell on a 10 s CD.
- Earth Shock is also a ranged interrupt and a high-threat pull.
- Totems are raid-wide: you will be wanted in raids for the totems, not just the damage.
- Ghost Wolf has no CD; Improved Ghost Wolf makes it instant and indoor.
- Lightning Bolt is weak and slow (2.5 s) until Maelstrom: a pull tool, not a damage spell.
- Windfury Weapon on your own main hand cancels your benefit from Windfury Totem; Flametongue Totem still works with it.
- No Tranquil Air Totem. Reincarnation is a trained passive at 30.
